CHALLENGES AND POSSIBLE **SOLUTIONS FOR THE MAINTENANCE OF THE OMOP CDM STANDARDIZED VOCABULARIES**

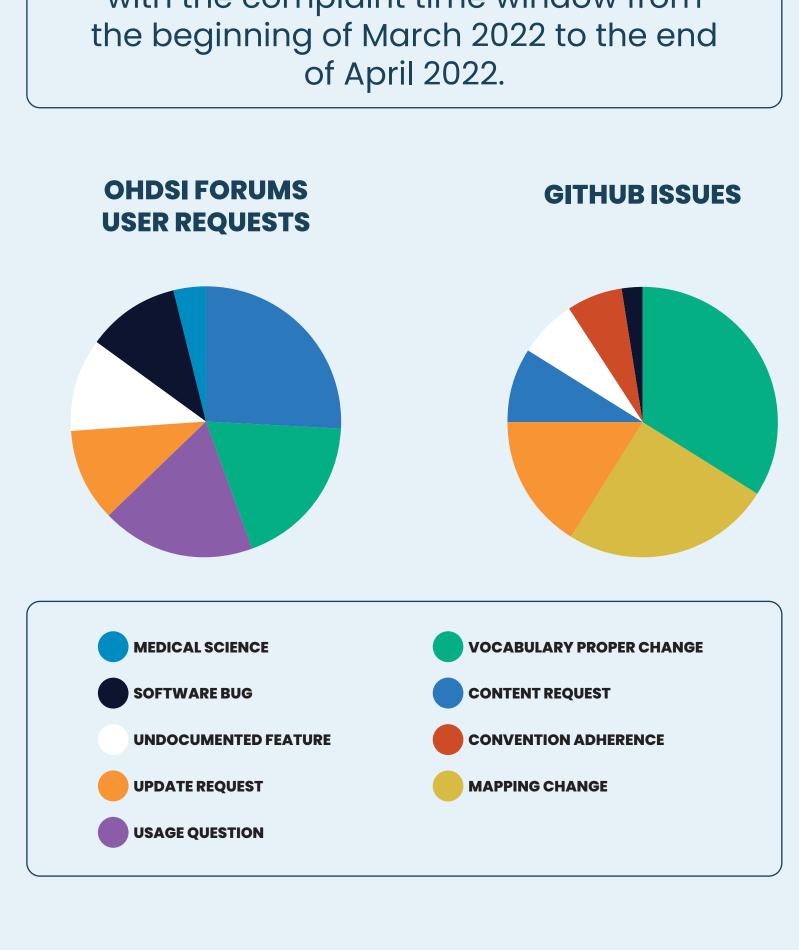

MARIIA KOLESNYK POLINA TALAPOVA **DENYS KADUK**

COMMUNITY-DRIVEN VOCABULARY DEVELOPMENT

Numerous reports on the OHDSI Forums and OHDSI/Common Data Model GitHub issues

We collected user feedback with the complaint time window from

VOCABULARY TEAM NOT UTILIZED **PROBLEM FEEDBACK SOLVED REPORTED FURTHER PROBLEMS SCIENTIFIC JOURNEY BECOME**

BLOCKERS

LET'S USE FULL ADVANTAGE OF THE OMOP OPEN-SOURCE NATURE:

A release schedule for core vocabularies updates in OMOP CDM

Precise time table

for core updates

(SNOMED, LOINC, ATC)

Estimates for user

requested vocabularies

Community engagement

Actualisation of conventions and documentation

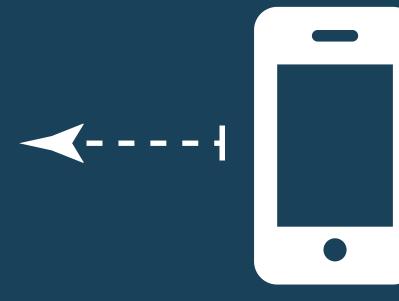

Implementation of mapping crowdsourcing

> Benefit both for product and researchers

Keeping documentation current with actual vocabulary content should be a priority

FULL INFORMATION IS AVAILABLE UNDER THE LINK

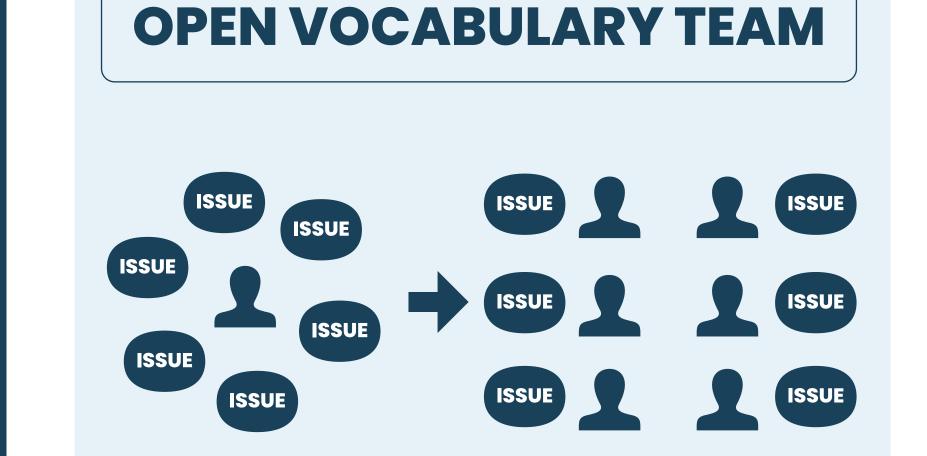

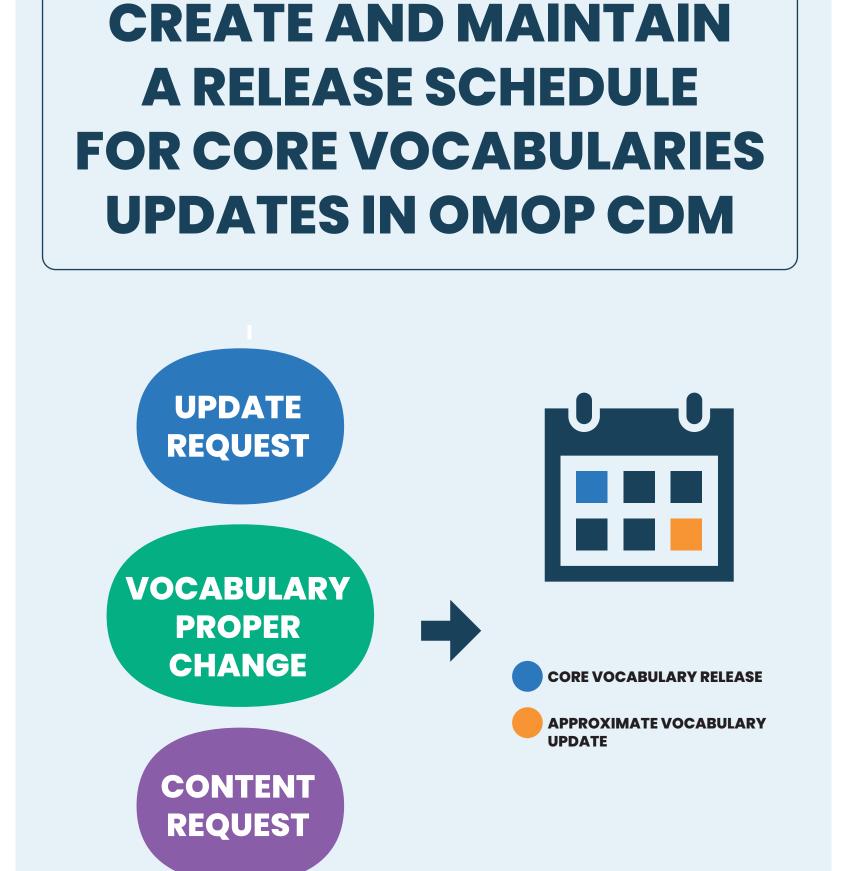

Scan QR to download the full paper

OUR SOLUTIONS:

To lower Vocabulary team load we propose:

INTRODUCE A TOOLSET TO VOLUNTEER **CROWD-SOURCE MAPPINGS**

CONVENTION UPDATE AND DOCUMENTATION REVIEW
